

CORE COMPETENCIES

- ✓ Customized, full-service IT Recycling Services: Protec Recycling manages all aspects of the IT disposition process for our clients and develops customized programs to meet their specific requirements. Superior customer service and data security are our paramount objectives.
- ✓ Logistics: Protec Recycling's professional staff is deployed to customer locations for pick-up, packaging and loading.
- ✓ Data Security Services: Customers can select on-site, guaranteed physical destruction (shredding) or off-site degaussing. Services are compliant with HIPAA, GLBA, FACTA and DoD best practices. A certificate of data destruction and serial report are provided and are always accessible in our customer portal.
- ✓ Audits and Reporting: Protec offers full audits of equipment recycled. A comprehensive list, including serial number, make and model, and any other data requested, can be provided for record keeping and chain-of-custody reporting.

DIFFERENTIATORS

Protec Recycling provides each customer with environmentally sustainable, cost effective, and confidential disposal of their electronic assets.

- ✓ Data Destruction services are performed on-site, and the process can be witnessed by a company representative.
- ✓ Protec Recycling embraces all industry leading standards and best practices for e-recycling. We adhere to a strict "zero landfill" policy for all electronics and electronic components. All material is processed and refined with domestic downstream vendors.
- ✓ Comprehensive and customized solutions are provided for retired computer systems, data centers, networking equipment, telecommunications infrastructure systems and mobile devices.
- ✓ As a local service provider, Protec is flexible and fast, servicing multiple locations and on short notice. The owner is just a phone call away and can be on-site as needed in short order.
- ✓ Protec has a proven track record working with large commercial clients and government agencies to meet or exceed their responsibilities to protect sensitive data and the environment.
